

THE MAKER OF JUICE PLUS+®

January 26, 2010

To Whom It May Concern,

As of July, 2005, the plant where our new Chewables are made stopped processing or packaging products that contain the following eight allergens in addition to not using ingredients that contain these ingredients.

Peanuts and derivatives	Wheat (Gluten)
Tree Nuts and derivatives	Eggs
Dairy (milk) and derivatives	Fish
Shellfish	Soy

As a result, all product produced and packaged in this facility do not contain any of these eight allergens.

Additionally, their current Good Manufacturing Practices include:

Peanut, peanut butter and tree nut snacks are not sold in the vending machines. Note: tree nuts include cashews, almonds, pecans, walnuts, Brazil nuts, chestnuts and macadamia nuts.

Employees are not allowed to bring peanut, peanut butter and tree nut snacks to the facility.

Sincerely,

A handwritten signature in black ink that reads 'Carlos F. Madero'. The signature is written in a cursive style with a large, sweeping flourish at the end.

Carlos F. Madero, Ph.D.
Director, Technical Support
