**TOWER TONIC** is a special blend of earth minerals designed to optimize the growth of plants in the Tower Garden® aeroponic growing system. **TOWER TONIC** is designed for continuous liquid feeding.

Use **TOWER TONIC A** in conjunction with **TOWER TONIC B** according to the directions below. Together, they provide a pH-balanced blend of natural plant nutrients that stimulate the growth of roots, leaves, flowers, vegetables and fruits.

## DIRECTIONS:

- Shake well before using.
- Always wear rubber gloves and appropriate eye protection when handling.
- Add Tower Tonic to the water in your Tower Garden® reservoir.
- Always add Tower Tonic A and Tower Tonic B separately to the water. **Do not mix together in their concentrated forms.**
- Add 20 ml each of Tower Tonic A and Tower Tonic B per gallon (3.785 liters) of water used.
- The Tower Garden® reservoir contains 20 gallons (approx. 76 liters) of water when filled to a level 3 inches (approx. 8 cm) from the top. We recommend 400 mL each of Tower Tonic A and Tower Tonic B for a full reservoir.
- When topping off the water in the reservoir, add a proportional amount each of Tower Tonic A and Tower Tonic B based on the amount of water added.
- After adding Tower Tonic A and Tower Tonic B, test the pH of the water in the reservoir using the pH Test Kit provided with your Tower Garden®. The optimal pH level is between 5.0 and 7.0.
- Adjust pH up or down as needed with the pH+ or pH- solutions also provided with your Tower Garden®.

## GUARANTEED ANALYSIS:

Total Nitrogen (N) .....	2.0%
Calcium (Ca) .....	1.0%
Iron (Fe) .....	0.05%
0.05% Chelated Iron (Fe)	

**DERIVED FROM:** Calcium Nitrate, Iron Sodium EDTA.
