WELLNESS COORDINATOR ROLE

Your Wellness Coordinator (WC) is usually your sponsoring Juice Plus+ Partner, but it can be anyone, including someone from your staff. Some health professionals assign this role to a staff member and reward them accordingly.

Once the WC receives the patient contact information from the health professional, he or she will follow up within 24 to 48 hours to answer questions and provide education regarding the benefits of Juice Plus+. Should your patient agree to take Juice Plus+, their order will be processed. The WC will then notify you and follow the customer journey to ensure a positive health experience.
